

Oscar Curto Cormenzana

+34 607 499 152 (SP) | oscar.curto@hotmail.com | Barcelona, Spain | <https://oscarcurtoc.github.io/>

Technology and innovation have always driven my ambitions, leading me to become a software engineer. I am a creative and proactive person with strong communication and teamwork skills. I take pride in my decisiveness, responsibility, and attention to detail. I have experience in software development, with a strong focus on quality assurance, automation, and optimizing development processes.

PROFESSIONAL EXPERIENCE

EventLAB Software Developer Engineer	Barcelona, Spain 01/2025 - Present
<ul style="list-style-type: none">Leading the development of a Unity VR project for a physics-based activity simulation, focusing on immersive interactions, performance optimization, and user experience.	
Ubisoft QA department	Barcelona, Spain 09/2020 - 12/2024
<ul style="list-style-type: none">Development tester both manual and automated at Rainbow 6 Siege - Playlist CellDev Test ownership of features from conception to Live releaseMentor and Manager of QA team newcomersGood command of the tools: JIRA, MIRO, & TestRail	
Light Eyes Technical department	Barcelona, Spain 09/2019 - 03/2020
<ul style="list-style-type: none">Solve any technical incidence, vulnerability analysis, DRP, training courses, ...Commercial management	

EDUCATION

Programming Mentorship Learning programming best practices and advanced techniques Mentors: Lead and Senior Programmers from Ubisoft	Barcelona, Spain 09/2023 - 09/2024
BCs in Informatics Engineering UPC - Polytechnic University of Catalonia, FIB	Barcelona, Spain 09/2016 - 06/2020
<ul style="list-style-type: none">The Final Tesis Project: "Correction of a user's physical position in an immersive virtual reality environment". Objective: To avoid the collision between the user and a physical object (wall) using Walk in Place, made with the Unity engine.	

PERSONAL PROJECTS

During my years of learning I have developed programming skills using different engines [Unity, Unreal Engine & Godot]. Some of these projects have been developed individually and others in a group way, I hope you like them: <https://oscarcurtoc.github.io/>

LANGUAGE SKILLS

Spanish (Native), Catalan(Native) & English (Advanced)

IT SKILLS

Unity (Advanced), Unreal Engine (Intermediate), Godot (Intermediate)
C# , C++, Python, Java (Advanced) , OpenGL (Intermediate)
Jira, Miro, Confluence, Github (Advanced)

ADDITIONAL INFORMATION

Driving license: B and A with own vehicle

Special Interest: Videogames, Virtual Reality, Augmented Reality and Apps
